

Item No.
66BONB

Oilbloc Glove, **NITRILE LINED**

FUNCTIONAL BENEFITS:

Leather and cotton combination provide excellent abrasion protection

OilBloc™ nitrile lining prevents liquid/oil soak-through, increased cut protection

Good grip even when leather is saturated with liquids, oils

Safety cuff for easy on and off, outer elastic to hang gloves when not in use

Hands stay clean and dry for all-day comfort

APPLICATIONS:

Automotive
Steel mills
Metal Stamping
Parts handling
Maintenance
Petroleum industry

66BONB

Oilbloc Glove, Nitrile Lined

Gunn-cut style gloves combine leather with cotton-canvas backs for great protection, plus comfort and breathability. Split leather on palms continues around fingertips and thumbs. A layer of nitrile OilBloc™ beneath the leather on the palm side prevents soak-through when handling oily parts, so gloves continue to have an excellent grip even when leather is saturated, keeping hands clean and dry. Nitrile also increases cut-protection for safer handling of slippery metal parts. Cotton safety cuff and inner elastic back for a better fit.

66BONB Split leather fitters glove with Nitrile oilbloc palm lining, safety cuff
Also Available in Ladies Size 8

OILBLOC

Engineered hand protection for every industry™
