

Dipped PVC Gloves

FB200 SERIES

FUNCTIONAL BENEFITS:

Double-dipped PVC resists many chemicals and solvents

Rough palm finish for excellent wet/dry grip

Puncture resistant

Sanitized fleece lining is comfortable, absorbent.

Two styles: knit-wrist or gauntlet cuff

APPLICATIONS:

Commercial Fishing
Car/Automotive
Maintenance
Construction
Petrochemical industry
Fuel oil delivery
Mining

FB200K

FB236

Dipped PVC Gloves - FB200 Series

PVC, short for polyvinyl chloride, is a thermoplastic polymer of urethane that resists many chemicals, oils, greases, acids, caustics, solvents, oxidation and ozone. It also provides great abrasion resistance and tensile strength. The FB200 Series gloves are a black, double-dipped high-grade PVC. They are an economy version of our green Torpedo double-dipped PVC gloves. PVC coating over a two-piece, sanitized, fleeced jersey liner has a rough finish for excellent grip in wet or dry conditions. Agriculture Canada (CFIA) Approved for Food Handling. **Note:** PVC has poor resistance to hot water and is not recommended for use above 79°C (175°F).

FB200K	Black fully coated PVC, Fleece lined, knit-wrist cuff
FB225	Black 10" fully coated PVC, Fleece lined
FB230	Black 12" fully coated PVC, Fleece lined
FB236	Black 14" fully coated PVC, Fleece lined

Engineered hand protection for every industry®
