

Item No.
1301/1301A

Flex, **VINYL IMPREGNATED** Gloves

FUNCTIONAL BENEFITS:

Vinyl impregnated coating for increased abrasion resistance

Rough surface increases grip in wet or oily conditions

Impervious to liquids, yet breathable

Easy on and off

Available in Mens or Ladies

APPLICATIONS:

Automotive
Metal Stamping
Parts Handling

Construction
General Maintenance

Assembly
Warehousing
Bottling Plants
Packaging

1301A

Flex, Vinyl-impregnated Gloves

The difference between these gloves and other palm-coated styles is the support itself. Cut and sewn from nylon interlock knit, they won't stretch, are easy to take on and off, and are impervious to liquids. The vinyl impregnated coating is breathable for comfort, but long wearing for abrasion resistance. Also, the process allows for gritty substances to be incorporated, increasing grip in wet/oily applications. The looser style makes them more breathable as well. Gloves are long-wearing and provide excellent abrasion resistance. Available in two weights - regular and heavyweight. Colour-coded trim on the cuffs indicates size.

1301	Standard-weight, Rust-brown, snug fit, slip-on style, Mens or Ladies
1301A	Heavyweight, Brown, snug fit, slip-on style, Sizes 7 - 10
130L	Standard-weight, Rust-brown, snug fit, slip-on style, Size L
1301S	Heavyweight, Brown, snug fit, slip-on style, Sizes S

Engineered hand protection for every industry™
