

Item No.

370CTIG/335GGB

Precision Arc GOATSKIN TIG Welding Gloves

FUNCTIONAL BENEFITS:

Goatskin is incredibly durable and tough, while still maintaining the highest tensile strength

Our supple goatskin leather makes for an excellent choice in TIG welding gloves that really do fit like a second skin

Chooses between snug fitting American-style cuffs, and wide fitting Canadian-style gauntlet cuffs

APPLICATIONS:

Welding - TIG and MIG

370CTIG

335GGB

Precision Arc Goatskin Tig Welder

For its light weight, goatskin is incredibly durable and tough. Laboratory tests were conducted subjecting various leathers to an equal number of abrasive wear cycles, followed by testing for tear strength. Goatskin came out on top with the highest tensile strength. These gloves are so thin and pliable, they really do fit like a second skin. This makes our supple goatskin leather an excellent choice for TIG welding gloves. All styles have one-piece backs and a choice between snug fitting American-style cuffs, and wide fitting Canadian-style gauntlet cuffs. Applications: Power Plants, Stainless Steel Welding, fine MIG or TIG welding.
