Reversible: allows you to replace gloves individually for greater cost savings

Fully washable (**No bleach.**)

APPLICATIONS:

Metal Stampings

Glass

Sharp-Edged Objects

SK

SKD

Kevlar® String Knit Gloves

Kevlar® is considered the most important man-made fiber discovery since nylon. No other fiber has its unique combination of properties. It provides excellent protection against both cutting hazards and burn hazards, while being lightweight and comfortable. Kevlar® will not melt or drip on contact with open flame. Superior manufactures a variety of Kevlar® string knit gloves to cover a range of needs. Most are 7-gauge string knits that offer excellent cut and slash resistance, making them ideal for handling metal stampings, glass and other sharp-edged materials while providing seamless comfort and dexterity. Gloves are available in a choice of three weights, and are available plain or PVC-dotted. (One or both sides.)

SK	Regular weight, yellow, 60 grams/pr, CFIA approved for food handling
SKD	One side dotted, Kevlar®, Yellow, 75 grams/pr
SK2D	Both sides dotted, Kevlar®, Yellow, 90 grams/pr
SKM	Medium weight, Yellow, 55 Grams
SKMD	Medium weight, dots, 70 Grams
SKM2D	Medium weight, dots both sides, 85 Grams
SKH	Heavyweight, yellow, 75 grams/pr
