KeepKleen® 9.5" Disposable Vinyl Medical Exam Grade Gloves

Superior's KeepKleen® Class-2, medical-grade disposable vinyl gloves are 5 mil. thick for greater resistance to tearing, while providing superior touch-sensitivity, dexterity and comfort. Gloves have a rolled cuff for extra strength that prevents ripping during donning. Gloves do not contain ANY natural rubber latex, making them a great alternative for those who suffer from latex allergies. Four styles are available: blue and clear, and both colors are available in lightly powdered styles with food grade cornstarch to ease donning and doffing; or as a powder-free glove.

All are CFIA-approved for food handling.
