gloves**

Sidewall®  
Leatherface Gloves - SQSW

NOW MADE WITH  
**THT**

Sidewall® string knit  
Gloves - SQLP

## Sidewall®- Leatherface Gloves

Traditional Leather Work Gloves have never quite fit right. Sidewall's patented construction and design have changed that. They're sewn on a seamless knit shell to conform to your hands shape. Traditional leather fitter gloves have 11 seams that annoy and rub. Superior's Sidewall® has just one, bomb-proof but subtle seam, so you won't even feel it. The Sidewall® comes in Small, Medium, Large and X-Large to fit your hands perfectly. The Sidewall® has a breathable knit, cotton back, keeping your hands cool and comfortable. Plus Sidewalls® are made with True Hand Technology, improving the fit, dexterity and comfort even more.

SQSW	Deluxe version, combination leather palm and string knit glove, Made with THT, Sizes S - XL
SQLP	Sidewall® string knit glove, split leather palm with black leather thumb welt Sizes S and L

Engineered hand protection for every industry®
