

Item No.

**RAIN05/RN05PT/JK**

**Labrador™**

# **RAINSUITS** with PVC

## **FUNCTIONAL BENEFITS:**

Fish and marine oil resistant

14 oz PVC makes this rainsuit cold and crack resistant to -20°F

Rot and mildew resistant

Attached hood

## **APPLICATIONS:**

Commercial Fishing

Construction

Agriculture

Forestry

Mining

Utilities

## **Labrador™ Rainsuits with PVC**

Labrador™ rainwear is the toughest in our lineup. It was designed for use by professionals in the harshest environments: like commercial fishermen, aquaculture workers and professional loggers. Before introducing the Labrador rainsuit, we did a whole year of field testing on the North Atlantic with fishermen in outport communities near our Newfoundland factory. The very best materials go into each suit, starting with a premium 14 oz PVC on cotton/polyester coated fabric. The durable coating is cold and crack resistant to -20°F, and is fish and marine oil resistant. The densely woven 4 oz/sq yard cotton/poly backing material makes a very comfortable inside surface and resists tears and snags. It has a grab tensile strength of 40 lbs. (ASTM D715). Our rainsuit will also withstand washings and the material is treated to be rot and mildew resistant. The best hardware and workmanship makes the Labrador™, a rainsuit that will stand up to the elements and hard work. Generous sized, double bib pants, and jacket with attached hood.

<b>RAIN05</b>	Labrador™ rainsuit, Bib Overalls, Jacket & Hood, PVC on Cotton/Poly, Green
<b>RN05JK</b>	Labrador™ Jacket only, PVC on Cotton/Poly, Green
<b>RN05PT</b>	Labrador™ Bib Overall only, PVC on Cotton/Poly, Green
