

Tire-Tred, RUBBER PALM Gloves

FUNCTIONAL BENEFITS:

Thick 1.1 mm. rubber is bonded to nylon-knit glove body

Great abrasion- and puncture-resistance while providing excellent grip and dexterity.

Rubber wraps around inside of thumb and index finger for added protection

Available in both medium- and heavy-duty styles

Glove body is seamless knit for comfort, dexterity

APPLICATIONS:

Construction
Material handling
Forestry
Lumber mills
Trash collection
Masonry Work
Glass Plants
Automotive

Tire-Tred, Rubber Palm Gloves

Our 'Tire-Tred' gloves are a thick, heavy-duty rubber palm-coated glove. Glove body is comfortable, seamless-knit nylon, that's hard wearing and offers great dexterity. On the palms, a 1.1 mm. layer of sheet rubber is vulcanized onto the knit surface, so the coating will not come apart from glove body. This rubber extends around the side of the index finger and thumb to provide extra protection in this high-wear area. The result is a combination of high puncture- and abrasion-resistance. Comfortable to wear, they make a great choice for lumber mills where splinters are a hazard or trash collection where punctures from sharp objects are a threat. The medium-duty version provides better flexibility and dexterity in applications where puncture and abrasion are less of a threat.
