**SuperiorTouch™ Polyurethane Coated  
Gloves made with Dyneema®**

Dyneema is 15 times stronger than steel on an equal weight basis and twice as strong as Kevlar®. It is also a lint free, continuous filament yarn. With their high coefficient of friction polyurethane palm coating and glove body with Dyneema®, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility. A good choice for handling sharp steel, glass or circuit boards, especially when lint and particulate contamination is a concern. CFIA Approved for food handling.

**Gloves that don't feel like gloves.**

Industrial gloves made with Dyneema®, the world's strongest fiber, offer exceptional protection against cuts and abrasion, as well as light weight and comfort. In addition to enabling "gloves that don't feel like gloves," Dyneema® polyethylene fibers provide great flexibility and cost efficiency for end-users.
