

Superior Touch, 13-GAUGE NYLON GLOVES with Polyurethane Palm Coating

FUNCTIONAL BENEFITS:

Fine-gauge nylon is highly touch-sensitive, and non-linting

Polyurethane coating provides great grip, also low-particulate shedding

Great for fine assembly or any task requiring light cut protection

Will not contaminate product, and grey and white versions are CFIA approved for food handling

Snug fitting for all day comfort and dexterity

APPLICATIONS:

Electronics
Cleanroom Assembly
Automotive
Small parts handling
Food handling

Superior Touch 13-Gauge Nylon Gloves with Polyurethane Palm Coating

Superior Touch fine-gauge nylon gloves offer excellent comfort and touch sensitivity, while polyurethane palm coating provides an excellent grip. But what makes these gloves really great is the non-linting filament nylon used in the seamless knit shell, and the low-particulate shed of the polyurethane palm coating. Gloves are excellent for use in any fine assembly work where contamination is an issue, and protect hands from nicks and minor cuts, while allowing for a bare-hand feel during tasks where it is essential.

All versions - except the S13BKPUQ - are CFIA approved for food handling.

S13PU	White PU palm coating on white nylon glove, Sizes: 5 - 12
S13GPU	Grey PU palm coating on grey nylon glove, Sizes: 6 - 10
S13PUQ	Economy version, white PU palm coating on white nylon glove, Sizes: 6 - 10
S13GPUQ	Economy version, grey PU palm coating on grey nylon glove, Sizes: 7 - 10
S13BKPUQ	Economy version, black PU palm coating on black nylon glove, Sizes: 6 - 11
