

Cut Resistant Palm Coated

SUPERIOR TOUCH

Gloves with Dyneema®

FUNCTIONAL BENEFITS:

- Lint Free
- Unparalleled Cut Resistance
- High Dexterity and Flexibility

APPLICATIONS:

- Sharp Steel
- Glass
- Circuit Boards
- Automotive
- Food Handling

Cut Resistant Palm Coated Gloves with Dyneema®

Dyneema is 15 times stronger than steel on an equal weight basis and twice as strong as Kevlar®. It is also a lint free, continuous filament yarn. With their high coefficient of friction polyurethane palm coating and glove body with Dyneema®, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility. A good choice for handling sharp steel, glass or circuit boards, especially when lint and particulate contamination is a concern. CFIA Approved for food handling.

Gloves that don't feel
like gloves.

Industrial gloves made with Dyneema®, the world's strongest fiber, offer exceptional protection against cuts and abrasion, as well as light weight and comfort. In addition to enabling "gloves that don't feel like gloves," Dyneema® polyethylene fibers provide great flexibility and cost efficiency for end-users.

S13SXPU Polyurethane palm coating, on a White glove with Dyneema®, Sizes 6-12

 CANADA'S first licensed manufacturer
of DSM Dyneema® products.

Dyneema® is a registered trademark of Royal DSM N.V.
