

NEW

Good-bye dry.

Nitrile Vitamin E
RDNEPF
Sizes: XS - L

Latex Vitamin E
RDLEPF
Sizes: XS - L

Wearing latex gloves on a daily basis dries out your hands, leaving your skin itchy, hard and sometimes cracked. Everyday glove use can even lead to irritant contact dermatitis, a condition often mistaken as a latex allergy.

Why not moisturize your hands while you work?

Our new Lano-E gloves are coated with Lanolin and Vitamin E to help keep your hands soft and healthy. And they are priced lower than what you are probably paying for regular exam gloves.
