Grey color hides stains

Hand-to-hand reversible for greater economy

APPLICATIONS:

Commercial Fisheries
Food Processing

STCi

STCi2D

SureKnit™ Nylon-Filament Tire-Core Gloves

Many times longer-wearing than our regular 7-gauge nylon gloves, these SureKnit™ gloves are reinforced with Tire-core. They scored an ASTM cut level of 1 (387 CPPT). The Taber test for abrasion resulted in a score of 230 cycles before the gloves wore through. The nylon fiber does not soak up water, oil or other liquids, which also makes them an excellent choice for fishermen. Grey in color to hide dirt.
