Clutch Gear® Suede Cowhide Mechanics Glove

Clutch Gear® Suede Cowhide Mechanics gloves feature soft, incredibly supple suede cowhide palms that give and conform to your hand while providing excellent abrasion protection. They have to be tried to be believed! Stretch lycra side panels add to the incredible fit and dexterity. Stretch-nylon backs are cushioned for greater resistance to impact and abrasion, and allow full freedom of movement. Wide-band elastic cuffs feature adjustable Velcro closures to keep glove snugly in place. Gloves are shaped ergonomically to reduce fatigue and deliver all-day comfort. Great protection and style, all without having to give up dexterity and touch sensitivity.

Note: Dry cleaning is recommended, but gloves can be washed in lukewarm water, using a conditioner (such as for hair) in the rinse water to restore suppleness of suede, and then hung to dry.

WARNING!

These gloves ARE NOT flame proof or fire retardant. DO NOT wear welding, grinding or expose to open flame.

MXSC Clutch Gear® Suede Cowhide Mechanics Glove, elastic wrists with velcro closures. Sizes: M - XL
