**VibraStop,**

# ANTI-VIBRATION

## Full and Half-finger Gloves

### FUNCTIONAL BENEFITS:

Meets anti-vibration standard EN ISO 10819: 1996 and ANSI S3.40

Black Nylon, 7 gauge shell for toughness

Machine washable

Rot resistant

Elastic wrist for a snug fit

### APPLICATIONS:

#### Automotive

Sanders, Grinders, Disc cutters

#### Forestry and Landscaping

Chainsaws, Brush cutters, Hedge trimmers, powered mowers

#### Construction

Hammer drills, Chipping hammers

S10VIBHF

S10VIB

S10KCVIB

### Vibration Dampening Gloves

These gloves are padded with a layer of vibration dampening polymer. Specially compounded, formed-chloroprene coated, seamless-lined gloves. Good for protection from repetitive impact and work with pneumatic vibrating tools. Ergonomic design offers both comfort and flexibility. Meets the EN ISO/ANSI standard for vibration reduction.

Repetitive trauma associated with excessive vibration to the hands is a big problem in North America. Employees develop many symptoms associated with hand-arm vibration syndrome (HAVS). Hand-arm vibration is vibration transmitted into your hands and arms when you use hand-held powered work equipment. Too much exposure to hand-arm vibration can cause hand-arm vibration syndrome (HAVS) and carpal tunnel syndrome.

**S10VIB** Full finger, 7 gauge black nylon shell, anti-Vibration palm, Sizes M - XL

**S10VIBHF** Half finger, 7 gauge black nylon shell, anti-Vibration palm, Sizes S - XL

**S10KCVIB** Full finger, seamless knit Kevlar® shell, anti-Vibration palm, Sizes M - XL

Kevlar® is a registered trademark of E.I. du Pont de Nemours and Company.

# HAVS

(Hand-Arm Vibration Syndrome)

**HAVS** affects the nerves, blood vessels, muscles and joints of the hand, wrist and arm. It can become severely disabling if ignored.

Engineered hand protection for every industry®
