## APPLICATIONS:

Utilities

## Endura® Lineman Gloves

These deluxe lineman mitts and gloves are made with selected heavyweight 3 1/2 oz grain horsehide leather. The leather for our Deluxe Lineman gloves is treated with a fluoro chemical water repellent emulsion to give the leather excellent water, oil, and stain repellent properties. The softness and natural breathability of the leather is not effected by the water repellent treatment. Other special features include our performance thumb/palm patch, which reinforces the critical wear areas with a double layer of leather. The back of the cuff is made with a fluorescent yellow leather with a contrasting red stripe for daytime visibility and a 3M Scotchlite™ retro-reflective stripe for night time visibility. All our Deluxe Lineman Mitts and Gloves are sewn with Kevlar® thread for extra seam strength.
