Steel-Core gloves made by combining stainless steel wire-core with Kevlar®

Designed to protect workers in hazardous applications that demand the highest levels of cut protection

Highly durable, lasting longer than standard Kevlar® gloves

APPLICATIONS:

Automotive
Metal Stamping
Parts Assembly
Material Handling

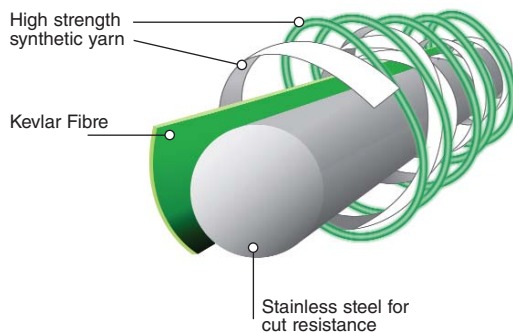

SKWCP35

Kevlar®, Stringknit Steel-Core Gloves

Our Kevlar® Steel-Core gloves provide increased cut resistance compared to standard Kevlar gloves. Designed to protect workers in extremely hazardous applications that demand the highest levels of cut protection. Our Kevlar® Steel-Core is also popular with many customers because of its high durability, lasting longer than standard Kevlar® gloves, thereby saving them money. Made by combining Stainless Steel wire core with Kevlar®.

SKWCP35 Kevlar® Wire-Core Poly, 35 grams/pr, Size S - XL

Advanced Composite Yarn

DuPont™
Kevlar is a registered trademark of E.I. du Pont de Nemours and Company
