

Item No.

SCXLX/SCXNT/SCXLP

Emerald CX, KEVLAR®/WIRE-CORE Cut Resistant Gloves

FUNCTIONAL BENEFITS:

Blend of Kevlar®, Wire-Core steel and polyester for increased cut protection

With over a quarter-mile of steel in each glove, the cut and abrasion-resistance is twice that of a regular Kevlar® glove

High abrasion resistance with great comfort and dexterity

APPLICATIONS:

- Metal Fabrication
- Assembly
- Glass Handling
- Sheet Metal Work

SCXNT

SCXLP

Emerald CX Series, Kevlar®/Wire-Core Gloves

Emerald CX is an engineered blend of super-strong materials, combining some of the strongest fibres known to man. Our Emerald CX gloves have exceptional cut-resistance; the Latex and Nitrile versions reach an impressive CE Cut-level 5/ASTM Level 4, compared with a standard-weight Kevlar® glove which scores an ASTM Level 2. But their cut-resistance is not the best thing about these gloves; the best thing is that they don't feel like highly cut-resistant gloves, considering your wearing a quarter mile of steel on your hands. These gloves will stop a brand new razor blade applied with up to 1200 grams of force. Even our lightest Nitrile version - SCXNT - withstood over 3000 grams of force in lab trials. Compare that to a heavy weight leather glove which cuts at under 150 grams. In addition to stellar cut-resistance, high abrasion-resistance and exceptional comfort, Emerald CX is where value meets performance; you would expect to pay a lot more for a glove with such impressive stats. Test in your own demanding applications.

- SCXLX Latex palm dip, wrinkle grip, CX blend of Steel, Kevlar® and Cordura Nylon
- SCXNT Nitrile palm dip, oil resistant, CX blend of Stainless Steel, Kevlar® and Cordura Nylon
- SCXLP Action Leather palm, wraparound pattern, CX blend of Stainless Steel, Kevlar® and Cordura Nylon

Sizes S, M, L, XL
