

Item No.  
**SCPFC/SKFC**

# **GENERALS™ PVC Palm-Coated COTTON/POLY OR CUT-RESISTANT KEVLAR® String-knit Glove**

## **FUNCTIONAL BENEFITS:**

Abrasion-resistant PVC coating resists oils, chemicals, and many acids and is a good alternative to latex

Choice of cool cotton/poly or cut-resistant Kevlar® knit glove body

Seamless comfort means no annoying seams to rub against skin, gloves conform to hands

Combination of seamless knit with PVC palms provides excellent grip and flexibility

Washable

## **APPLICATIONS:**

Automotive  
General Maintenance  
Parts Handling  
General purpose  
Metal Stamping  
(Kevlar® version)

## **GENERALS™ PVC Palm-Coated Cotton/poly or Cut-resistant Kevlar® String-knit Glove**

For practicality and versatility, try a pair of the 'Generals' - a general-purpose glove with tough-yet-flexible PVC coating on the palm that stands up to abrasion and wear. Besides good abrasion resistance, PVC is effective against water and most aqueous solutions, detergents, and diluted bases and acids. Choose from either a cotton/poly knit shell that breathes for a cool, ventilated, comfortable fit; or for the stellar cut protection of a snug, comfortable Kevlar® knit body. Both gloves offer an economical alternative to more expensive nitrile and leather gloves when performing general-maintenance tasks or when handling parts and materials. Gloves launder well; no bleach for Kevlar® version.

SCPFC	Generals™ one-side black PVC palm-coat on white cotton/poly glove, 74 grams/pr. Sizes S-XL
SKFC	Generals™ one-side black PVC-coated Kevlar®, 84 grams/pr.
