

Item No.

**SCPDRT/SCP2DRT**

# **Sure-Grip® One- or Both-sides dotted, COTTON/POLYESTER GLOVES with PVC-reinforced Sides**

## **FUNCTIONAL BENEFITS:**

PVC-reinforced critical-wear areas protect the most vulnerable parts of your hands

Cotton/poly knit is practical and breathable for cool, all-day comfort

Seamless comfort means no annoying seams to rub against skin, gloves conform to hands

PVC dots provide excellent grip and flexibility

Washable

## **APPLICATIONS:**

Automotive  
General Maintenance  
Parts Handling  
General purpose

SCPDRT

SCP2DRT

## **Sure-Grip® One- or Both-sides dotted, Cotton/Polyester Gloves with PVC-reinforced Sides**

Many job applications require extra protection at one or all of the following critical-wear areas: finger tips; thumb crotch; sides of thumb and sides of index finger. A coating of abrasion-resistant PVC covers the ends of the fingers, plus the sides of the thumb and forefinger, with special coverage in the thumb crotch. Choose from two styles that feature one or both sides dotted with PVC for added grip. Both gloves offer an economical alternative to more expensive nitrile and leather gloves when performing general maintenance tasks or parts handling. Gloves launder well.

SCPDRT Sure-Grip® One-side dotted, cotton/polyester, PVC reinforced. Sizes S-XL

SCP2DRT Sure-Grip® Both-sides dotted, cotton/polyester, PVC reinforced. Sizes S-XL

Engineered hand protection for every industry®
