

Item No.
S10VIBHF and S10VIB

NEW

VibraStop

ANTI-VIBRATION

Full and Half-finger Gloves

FUNCTIONAL BENEFITS:

Meets anti-vibration standard ISO 10819: 1996 and ANSI S3.40

Black Nylon, 7 gauge shell for toughness

Machine washable

Rot resistant

Elastic wrist for a snug fit

APPLICATIONS:

Metal Fabrication

Metal Stamping

Automotive

Sanders, Grinders, Disc cutters

Forestry and Landscaping

Chainsaws, Brush cutters, Hedge trimmers, powered mowers

Construction

Hammer drills, Chipping hammers

S10VIB

S10KCVIB

S10VIBHF

HAVS

(Hand-Arm Vibration Syndrome)

HAVS affects the nerves, blood vessels, muscles and joints of the hand, wrist and arm. It can become severely disabling if ignored.

Vibration Dampening Gloves

These gloves are padded with a layer of vibration dampening polymer. Specially compounded, formed-chloroprene coated, seamless-lined gloves. Good for protection from repetitive impact and work with pneumatic vibrating tools. Ergonomic design offers both comfort and flexibility. Repetitive trauma associated with excessive vibration to the hands is a big problem in North America. Employees develop many symptoms associated with hand-arm vibration syndrome (HAVS). Hand-arm vibration is vibration transmitted into your hands and arms when you use hand-held powered work equipment. Too much exposure to hand-arm vibration can cause hand-arm vibration syndrome (HAVS) and carpal tunnel syndrome.
