

Item No.
N230FL

North Sea 11" Winter-lined **CHEMICAL-RESISTANT** Supported Nitrile Glove

FUNCTIONAL BENEFITS:

Specially formulated nitrile stays ultrasoft, flexible even in cold conditions

Sand-patch finish channels liquids away from surface for good wet/dry grip

11" gauntlet cuffs protect wrists, allow for ease of donning

Fully winter-fleece lined for extreme cold

Good puncture and abrasion resistance

Shaped to hand for better hand movement

Available in sizes S - XXL

APPLICATIONS:

Fisheries
Janitorial
Petro-Chemical Refining
Outdoor maintenance
Shipyards

N230FL

North Sea 11" Winter-lined Chemical-resistant Supported Nitrile Glove

Nitrile rubber offers good puncture and abrasion resistance and stands up extremely well to chemicals and oils. The type used for this style is specially formulated to stay flexible in cold conditions, so gloves will not stiffen, crack, or lose their oil-resistant properties even in extreme cold. They also feature a sand-patch finish on the hand portion to channels oils and liquids away from the surface for increased grip.

Glove support is cut and sewn from soft cotton jersey, and features a forchette thumb for better fit and comfort. The full winter-fleece lining cushions hands while keeping them warm and dry.
