Sizes: L - 4XL

APPLICATIONS:

Paint Line

Construction

Light Splash Applications

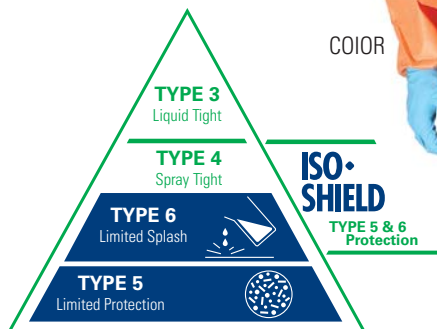

Janitorial

General Maintenance

Fiberglass Manufacturing and Installation

Pressure Washing

Tank Cleaning

Iso-Shield Protective Coveralls

At Superior, we like to apply innovation to existing products as well as new ones. Our disposable, spunbonded Iso-Shield coveralls have traditionally been offered in white, but for times when visibility is important, we've added a coverall in orange, with extras built in to increase worker comfort and safety. Protection from light chemical splash has been improved by adding an adhesive zipper flap running down the entire length of the garment. The new gusseted seat allows for greater freedom of movement, and reduced risk of tearing. These are in addition to the already great features of this coverall, including high tensile strength (ASTM D5035) and high tear-resistance. They are anti-static, silicone-free, and the combination of water-repellancy with air permeability allows for excellent comfort and protection. Elasticized hood and arm and leg openings.

COIOR IsoShield, orange coverall with hood, elastic wrist, ankle and waist.
Zippered front, Sizes: L- 4XL
