## APPLICATIONS:

Car/Automotive

Parts Handling

Maintenance

Material Handling

Glove Liner

SCPGHD

## Grey Stringknit Heavyweight Gloves

We've added a new, heavy-duty cotton/poly string knit to our lineup of hard-working, economical gloves. Increased weight equals longer wear and at 900 grams per dozen, this glove is a full 45% heavier than our regular cotton/poly gloves. The 60/40 cotton polyester blend offers seamless comfort and absorption, while the grey color hides dirt and stains. Available in two styles: regular, and PVC dotted. Undotted version is reversible and can be replaced individually for greater cost savings. Great as a general-purpose glove or as a liner, they offer great dexterity and launder well.

SCPGHD Grey heavy weight string knit cotton/poly glove, with PVC dots

Available Sizes: S, M, L, XL.

Engineered hand protection for every industry®
