**Worlds
Warmest
MITT**

SNOWD200L

SNOW Series - Deluxe Winter Mitt

Superior is so confident in our new Snow series Deluxe Winter Mitt, that we guarantee it will be the warmest mitt you've ever experienced, or your money back. Designed with frigid Canadian winters in mind, the result is a multi-layered, high-tech mitt in a beautiful black calfskin leather package. Sidewall construction on the outer layer creates ample room for the removable liner and is elasticized at the wrist for a snug fit. All seams are fully welted for durability, and the extra-wide, double-layer nylon gauntlet cuff is 6.5" long. A removable BOA pile wiper/cheek-warmer completes the exterior. It is the removable liner though, that really tells the whole story. Simply, it is the best we've ever designed, consisting of four separate layers of material that provide incomparable warmth: two centre layers of foam, surrounded by a unique fabric, that bonds soft fleece jersey to our **'Temperloc'** synthetic insulation. The whole liner is easily removed using velcro strips, allowing for fast and easy drying. Overall mitt length is 17" and they fit easily over snowmobile suits and parkas, with straps for tightening and adjusting. Superior has created the world's warmest mitt. Try them today....you have nothing to lose!

SNOWD200L Deluxe winter mitt, Black leather calfskin, removable **'Temperloc'** lining, 6.5" nylon gauntlet cuff
