NEW

KEVLAR® SLEEVE w/Nylon Mesh "Stayz-Up" Inner Layer

FUNCTIONAL BENEFITS:

Inner layer of semi-rigid ballistic nylon mesh insures sleeve won't sag, keeping the sleeve up and in place

Stayz-Up Sleeves are great for protecting the wrist and forearms from cuts and burns

The stretchy knit conforms comfortably to the arm

Available in 6", 9" and 12" lengths

APPLICATIONS:

Automotive

Metal Stamping

Parts Assembly

Material Handling

Item. **KKWCNM6**

Kevlar® Sleeve with Nylon Mesh Inner Liner

Stayz-Up Sleeves are great for protecting the wrist and forearms from cuts and burns. The stretchy knit conforms comfortably to the arm. The Kevlar® exterior won't burn and protects from momentary contact with objects as hot as 800°F degrees and is also cut and slash resistant.

Stayz-Up Sleeves have an inner layer of Nylon ballistic mesh. This adds an extra layer of cut protection and the rigidity needed to keep the sleeve from sliding down the wrist.

The plated version of the Stayz-Up Kevlar Sleeves have an outer layer 100% Kevlar®, and a middle layer of ballistic Nylon mesh and inside layer of cotton. Beside making the sleeves more economical, this also puts comfortable cotton against the skin.

Outer Layer knit Kevlar, middle layer Ballistic Nylon Mesh, inner layer knit Kevlar
