

Item No.
SNOW388V

NEW

SnowForce, WINTER GLOVES

FUNCTIONAL BENEFITS:

We've created a glove that is breathable, waterproof and windproof, yet offers great dexterity too, by taking advantage of several high-functioning fabrics, developed with harsh winter conditions in mind

Featuring genuine Clarino® palms for super flexibility and long wear; anti-slip PVC patches in critical palm and fingertip areas for excellent grip even in wet conditions; gauntlet cuffs that adjust for a custom fit using velcro tabs; and elastic at the wrists to ensure a snug fit that locks out the cold

APPLICATIONS:

Agriculture

Construction

Material Handling

Maintenance

Transportation

Cold Storage

SNOW388V

SnowForce Winter Glove

Just in time for winter, Superior introduces the SnowForce glove, where high style meets high tech. We've created a glove that is breathable, waterproof and windproof, yet offers great dexterity too, by taking advantage of several high-functioning fabrics developed with harsh winter conditions in mind. These are gloves that you'll love to wear: hard working but with superb styling, on the job or off. Featuring genuine Clarino® palms for super flexibility and long wear; anti-slip PVC patches in critical palm and fingertip areas for excellent grip even in wet conditions; gauntlet cuffs that adjust for a custom fit using velcro tabs; and elastic at the wrists to ensure a snug fit that locks out the cold. Fingertips have a unique wrap around design to eliminate seams, which allows for amazing sensitivity considering that these are winter work gloves. Inverted pleats at the back of the finger joints enhance comfort and dexterity, and shape the glove to the hand. Three layers of insulation - including 100 gram/square meter weight of warm yet surprisingly thin HeatLok insulation - provide maximum warmth with minimum bulk. Also featuring Porelle Ski-Dri™ waterproof, breathable inserts, that lock out water and wind while moisture from sweaty hands is not locked in. Kevlar® and stainless-steel covered, foam-padded knuckle strap for protection against hard knocks, scrapes and abrasion; glove back, sidewall and forchettes are stretchy nylon/ lycra for a combination of toughness and flexibility; and the Snowforce logo on the cuff and index finger let's you know you've got the genuine article.

SNOW388V Black ski glove with Clarino® palm, PVC patches, reinforced knuckle strap, nylon lycra back with velcro strap

Sizes: M - XL

Gauntlet cuffs that adjust for a custom fit using velcro tabs, and elastic at the wrists to ensure a snug fit

Kevlar® is a registered trademark of E.I. du Pont de Nemours and Company.
Porelle Ski-Dri™ is a licensed product of PIL Membranes Limited

Engineered hand protection for every industry™
