

Item No.  
**A50YN4535**

# Heavy Duty NEOPRENE APRON

## FUNCTIONAL BENEFITS:

Heavy-duty 50 mil. neoprene impermeable to many substances

High abrasion resistance

Generous sizing provides full coverage

Easily cleaned/sterilized for re-use

CFIA approved for food handling

## APPLICATIONS:

Food Processing

Commercial Fishing

Meat-packing plants

Electroplating

Chemical processing

Industrial maintenance

## Heavy-duty Yellow Neoprene Apron

Our heavy-duty neoprene apron covers a wide variety of applications. At a thickness of 50 mil., you're well protected from acids, alcohol, fats, caustics, ketones, detergents and abrasion, whether you work in food processing, fishing, or any industrial application where chemical exposure is a factor. Also provides excellent abrasion protection. Particularly suited to meat-packing plants, aprons can be easily cleaned and sterilized for re-use and are CFIA approved for food handling. Adjustable neck strap and back ties for custom fit. Apron measures 45" long and 35" wide for full coverage.

A50YN4535 Yellow, 1/2 mm thick, heavy duty Neoprene apron

#A50YN4535  
Polyethylene Disposable 

Engineered hand protection for every industry®
