Scientific Research

RDFVPF

## KeepKleen® Flex, Premium Vinyl Disposable Gloves

Our new KeepKleen® Flex disposable gloves have arrived. All the same great features of our regular KeepKleen® vinyl disposable gloves, now with the added bonus of super-stretch. Made from a vinyl, they resist tears and provide excellent tactile sensitivity, dexterity and comfort. A great alternative to latex for those affected by latex allergies, the cuff edges are rolled for extra strength to reduce the risk of ripping while donning on or off. Powder-free, 5 mil. thick, they are CFIA approved for food handling. Premium stretch without the premium price!

RDFVPF KeepKleen® disposable flex vinyl gloves, Powder Free, Class 2 Medical.  
Sizes: XS - XL

KeepKleen®

Engineered hand protection for every industry®
