Good Flexibility and comfort

APPLICATIONS:

Forestry

Utilities

Public Works

377CS

Endura® Ballistic-nylon Chainsaw Gloves

Our Endura® chainsaw gloves are specially designed to protect chainsaw operators from the unique hazards they face. Ballistic nylon on the back of the gloves is knit in a manner that causes fabric to completely unravel if accidentally caught in machinery. The loose yarn then jams the chainsaw and spares the user from severe injury. Palms are made with premium grain leather for excellent dexterity, durability and water repellency.
