

Cut protection, to the
power of 10...

10x the cut resistance
of leather gloves*.

HOW MANY LEATHER GLOVES DOES IT TAKE TO MATCH THE CUT PROTECTION OF ONE PAIR OF SUPERIOR'S EMERALD CX GLOVES?

TOO MANY TO MOVE YOUR HAND IN, THAT'S FOR SURE.

Emerald CX Kevlar®/Stainless Steel Composite Glove with PU coating knit with an engineered blend of Kevlar® and stainless steel, because two super-strong materials are definitely better than one. S13CXP is rated ANSI Level 4 cut protection.

*Based on a sample of four common styles of split-leather work gloves.

Engineered hand protection for every industry™
