

Item No.  
**T1200GKW**

# Protex™, **GREY TERRY KNIT** Glove

## FUNCTIONAL BENEFITS:

- Heavy-duty terry knit is a great insulator
- Provides excellent protection against heat and abrasion
- Grey colour hides dirt
- Long-wearing, economical protection
- Hand to hand reversible for greater economy

## APPLICATIONS:

- Material handling
- Handling sharp metal parts
- General purpose

T1200GKW

## Protex™ Grey Terry Knit Glove

Superior's Protex terry gloves are rugged and practical. Heavy-duty looped-pile construction traps air, providing excellent insulation against heat and abrasion, as well as good cut protection when handling sharp or rough metal parts. Gloves are reversible, for longer wear between washes. Grey colour hides dirt, and glove is long-wearing, making them an economical and effective choice for those handling sharp materials, or as a general-purpose work glove.
