

Item No.
SHK230

NEW

Torpedo Plus™, **12" FLEXIBLE PVC GLOVES** with Kevlar® Support

FUNCTIONAL BENEFITS:

- Great cut and chemical protection
- Soft flexible PVC for less hand fatigue
- Sand-patch finish for great grip

APPLICATIONS:

- Automotive
- Maintenance
- Petrochemical
- Metal Fabrication

Torpedo Plus™ 12" Flexible PVC Gloves with Kevlar® Support

Superior's Torpedo Plus™ gloves offer a combination of chemical and cut resistance. Kevlar® knit support is dipped in PVC over an ergonomic hand form, for maximum comfort in a glove that offers two kinds of protection. Primarily suited to someone working around chemicals, where cut resistance is also of concern, the outer coating of super-soft, flexible PVC offers good resistance to oils, diluted bases and acids (limited resistance to organic solvents), with a sand-patch finish for excellent grip in oil. The Kevlar® lining greatly increases the overall tear and cut resistance of the glove.
