NEW

Endura® GRAIN-LEATHER CHOPPER MITT with Removable Liner

FUNCTIONAL BENEFITS:

- Mitt style keeps hands warmer than gloves
- Durable cow grain ideal for rugged outdoor work
- Cow grain resists abrasion, provides some water repellency
- Slip-on style mitt for easy on and off
- Elastic at back of wrist for snug fit, keeps warmth in and cold and snow out
- Warm acrylic BOA pile lining is removable for faster, more thorough drying

APPLICATIONS:

- Cold storage, warehouse
- Snowmobiling/recreation
- Construction
- Agricultural
- Ski slopes
- Ranching
- General purpose for cold-weather

Endura® Grain-Leather Chopper Mitt with Removable Liner

Chopper mitts get their name from the kind of work that they were invented for: wood chopping. These same qualities are what also make them the hand protection of choice for anyone working in sub-zero conditions: they're warm and easy to take on and off. Also, it's a well-established fact that mitts keep your hands warmer than gloves, and these are no exception. Tough cow-grain exteriors are highly abrasion resistant, durable, and provide just enough water repellency for most of the tasks they were designed for. Thick, acrylic pile lining provides a snug, cushiony, layer of insulation, keeping fingers toasty warm. And best of all, these liners are removable, letting you dry mitts thoroughly and quickly at the end of the day. Elastic at the wrist keeps the warmth in, cold air and snow out. In the coldest conditions, let Endura® heavy-duty mitts help you get the job done - comfortably.
