- Lightweight and dexterous
- Good puncture and abrasion resistance
- Shaped to hand for better hand movement
- Cotton lined for comfort

APPLICATIONS:

- Commercial fishing
- Petro-chemical
- Maintenance
- Oily metal parts

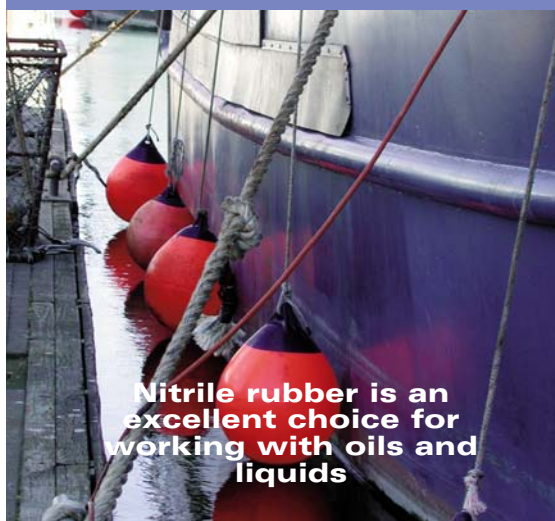

N230CR

12" Cold-Resistant Nitrile Glove

These gloves have a cut-and-sewn support that features a forchette thumb for better fit and comfort. Gloves are dipped in nitrile rubber and finished with a sand-patch grip in the upper hand area to channel oils and liquids away from the surface for a secure grip when working in wet or oily conditions. The nitrile has also been formulated to withstand extreme cold and will not stiffen or crack while retaining their oil-resistant properties. Gloves are lightweight for better dexterity and comfort, and will fit over a liner for increased warmth.

N230CR 30 cm (12") cold and oil-resistant nitrile gloves, cotton-lined with excellent wet grip, Available in sizes M -XXL

Nitrile rubber is an excellent choice for working with oils and liquids

**COLD
RESISTANT**
