

Item No.

**S13SXGPU/S13SXGPUQ**

**SuperiorTouch™**

**POLYURETHANE COATED**

**gloves made with Dyneema®**

**FUNCTIONAL BENEFITS:**

Lint Free

Cut Resistance

Comfortable fit, high dexterity and flexibility

**S13SXGPU**

509 grams of cut protection

**S13SXGPUQ**

563 grams of cut protection

**APPLICATIONS:**

Sharp Steel

Glass

Circuit Boards

Food Handling

HVAC

Metal Fabrication

Automotive

S13SXGPU

S13SXGPUQ

**SuperiorTouch™ Polyurethane Coated Gloves made with Dyneema®**

Dyneema is 15 times stronger than steel on an equal weight basis and twice as strong as Kevlar®. It is also a lint free, continuous filament yarn. With their high coefficient of friction polyurethane palm coating and glove body with Dyneema®, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility. A good choice for handling sharp steel, glass or circuit boards, especially when lint and particulate contamination is a concern. CFIA Approved for food handling.

**Gloves that don't feel like gloves.**

Industrial gloves made with Dyneema®, the world's strongest fiber, offer exceptional protection against cuts and abrasion, as well as light weight and comfort. In addition to enabling "gloves that don't feel like gloves," Dyneema® polyethylene fibers provide great flexibility and cost efficiency for end-users.

**CANADA'S** first licensed manufacturer of **DSM Dyneema®** products.

Dyneema® is a registered trademark of Royal DSM N.V.
