

Item No.
S13FGLGPU

Superior Touch, Lime-green,

EXTREME CUT RESISTANT

**Glove made with Dyneema® and Fiberglass
and Polyurethane Palm-coated**

FUNCTIONAL BENEFITS:

Exceptionally cut-resistant composite yarn is a blend of fibreglass, Dyneema® and nylon

Lime green colour for greater visibility, polyurethane palm coating provides excellent grip in wet or oily conditions

Fine-gauge, seamless knit provides a high degree of dexterity and flexibility

A great choice for handling sharp steel and glass

940 grams of cut protection

APPLICATIONS:

Sheet Metal
Metal Stamping and Fabrication
Glass Handling
Sharp Steel
Circuit Boards
Automotive

ADVANCED COMPOSITE YARN

Incorporating glass fibre into composite yarns yields an excellent range of properties. Fibreglass has a high strength-to-weight ratio, and when used in textiles, remains unaffected by the multi-directional movement of knit structures. Glass is versatile, economical, and lightweight, and when combined with sophisticated fibres like Dyneema®, gains unparalleled cut-resistant properties. Gloves made with fibreglass gain strength without additional bulk or weight.

 **CANADA'S** first licensed manufacturer of **DSM Dyneema®** products.

Dyneema® is a registered trademark of Royal DSM N.V.

S13FGLGPU

Superior Touch, Lime-green, Extreme Cut-resistant Fibreglass/Nylon Glove made with Dyneema® and Polyurethane Palm-coated

Superior combines three really tough materials to create one amazingly cut-resistant glove that also happens to be incredibly comfortable. When high-tech fibres are added to composite yarns, the results are impressive. Fibreglass on its own is brittle, and while it scores well in some aspects of cut-resistance, does not in itself stand up well to direct cut. However, when combined with Dyneema®, brittleness is no longer an issue, as the fibreglass is now strengthened and supported by the surrounding material. Nylon added to this composite enhances toughness and wear, while the ergonomically curved hand and finger shape of the seamless knit shell provides all-day comfort. Palms are coated with tough polyurethane for grip and added durability in wet/dry or oily conditions.

S13FGLGPU Superior Touch Polyurethane palm-coated lime green glove, 13-gauge fibreglass/nylon string-knit glove body with Dyneema®. CE cut level 2

Sizes: 7-10

| Performance Level | Weight (in grams) needed to cut through with 1 inch (25mm) of blade travel |
|-------------------|----------------------------------------------------------------------------|
| 0 | < 199 |
| 1 | 200 - 499 |
| 2 | 500 - 999 |
| 3 | 1000 - 1499 |
| 4 | 1500 - 3499 |
| 5 | > 3500 |
