

Item No.

S13KFGFNT/S13KFGPU

Dexterity™, Palm Coated ARAMID/FIBERGLASS String-Knit Glove

FUNCTIONAL BENEFITS:

Both styles are rated ASTM cut-level 4 (2100 grams of cut force)

Fiberglass wrapped with aramid fiber provides twice the cut resistance of a regular Kevlar® glove

Choice of non-shedding PU palms with good wet/dry grip, or foamed-nitrile palms for good wet/oily grip and increased puncture resistance. Both increase abrasion resistance

Fine-gauge, seamless knit provides a high degree of dexterity and flexibility; ergonomically shaped to the natural curves of the hand

APPLICATIONS:

- Automotive
- Metal Stamping, Fabrication
- Small Parts Handling
- Assembly
- Glass Handling
- Sheet Metal Work

Dexterity™ Palm-coated ARAMID/FIBERGLASS String-knit Glove

Cut-resistant 13-gauge knit shell is rated ASTM level-4 in cut protection, enduring 2100 grams of cut force during testing. The composite blend features fiberglass encased with aramid fiber for a boost in cut protection that won't come through to the hands.

Choose either polyurethane-coated (PU-coated) palms, or foamed nitrile. PU coating adds excellent wet/dry grip and is non-shedding, making it ideal for working with electronics, where particulate shed is a problem. Nitrile adds puncture resistance, abrasion resistance and a good grip in wet or oily conditions. Seamless-knit shell is ergonomically-designed with a curved hand and finger shape for unsurpassed comfort and dexterity, and coating is applied while glove is on a hand mold for a true fit. Flexibility and breathability are enhanced by uncoated backs.
