Endura®

Pigskin Leather Fitters Gloves with Safety Cuffs & Knuckle Strap

#76PB

Endura® pigskin fitters gloves come in two styles. One with an internal elastic back, and the other with an outer elastic back, providing a snug fit for workers who like to hang their gloves off their belts when not wearing them. Pigskin is the best choice for wet applications as the leather returns to its original softness once dry. Gunn-cut, leather-tipped fingers, knuckle straps, lined palms and safety cuffs complete the package.

Also available in an unlined version (#76PBUL).
