Endura[®]

Deluxe Welding Glove

#675DBLB

Our Endura[®] welders are made with soft, supple deerskin backs and elkskin palms for the ultimate in rugged comfort and dexterity. Elkskin is the strongest hide available, while both leathers are prized for being durable yet washable. Sewn throughout with flame-resistant Kevlar[®] thread, backs are fleece-jersey lined for protection against knocks. Gusseted 5.5" split cowhide gauntlet cuffs protect the wrists, and wing thumbs increase comfort for reduced hand fatigue.
