Sure-Grip® DOTTED Gloves

FUNCTIONAL BENEFITS:

PVC coating resists oils, chemicals, and many acids and is a good alternative to latex

Gloves are hand-to-hand reversible for increased glove life.

Choice of cotton/poly blend or nylon

Seamless comfort means no annoying seams to rub against skin, plus gloves conform to hands.

Combination of seamless knit with PVC dots provides excellent grip and flexibility.

Washable

APPLICATIONS:

Wet/dry material handling

General purpose/maintenance

Parts handling

Assembly

Warehousing

Fabrication

Automotive

Construction

Show your colours, on our String Knit Gloves.

Whether you are thinking of 500 or 50,000 dozen, a printed pair of gloves is a great way to promote your company or safety message. Our graphic design department can work with your existing artwork, or can custom design an image or message to suit your company's needs.

SCPD

SURE-GRIP® Dotted Gloves

Our Sure-Grip® seamless-knit gloves have over five-hundred PVC grip dots cured to the surface for an outstanding abrasion resistance and excellent grip on wet or dry surfaces. Available in a choice of yarns. Cotton and polyester blend offers cooler comfort, while the natural color hide stains better. Our nylon version is a tough, hard-wearing material that does not soak up water, oil or other liquids and hence do not get heavy when wet. Both styles come with one (for maximum comfort) or both (for longer glove life) sides coated, and are hand-to-hand reversible. And, for custom-printed gloves that showcase your company logo and colors, speak to a representative for information on custom glove screening. Customize for company pride!

SCPD	Sure-Grip® one-side dotted, cotton/polyester, natural colour, 64 grams/pr, Sizes XS-XL
SCP2D	Sure-Grip® both sides dotted, Cotton/Polyester, Natural colour, 74 grams/pr, Sizes XS-XL
