Grain Fitters Gloves with Elastic Backs

#76BOE

Endura® fitters gloves stand up to heavy-duty wear. These gloves feature smooth top grain cowhide on the palms, fingertips, index finger and knuckle strap to protect against scrapes and abrasions, which also gives them excellent durability and resistance to oil and water.

Their flexible, gunn-cut pattern allows for freedom of movement and breathable cotton backs are elasticized for a snug fit.

These gloves have the added feature of an outer elastic back, which means gloves can be hung on a belt or hook when not being worn.
