

Notice of Product Change Letter

RE: Part STAFGPU

Date: December 4, 2017

To: Our Valued Customers

This letter is to inform you that we are implementing a change to the product as described in this communication.

Change Description: STAFGPU will now be labelled as an ANSI level A5 cut glove. This is an increase from its previous level A4 rating.

Reason The technical properties of this glove have not changed. It uses the same materials and will continue to have the same superior dexterity and comfort. Third-party cut testing proved that the glove had a higher level of cut resistance than previously tested.

In this case the change relates to:

- Cosmetic/Aesthetic Enhancement
- Technical Enhancement(s)
- Replacement of existing product with a new product

The change is as part of a rolling change – – The most popular sizes (size 9 and 10) are already labelled as cut-level A5. Sizes 5-8 and 11- 12 will continue be labelled as level A4 until old stock is depleted and new inventory arrives.

Note: For questions, contact your Territory Manager.
