

#69BSKFFL

Endura®

Premium Cut-Resistant Fitter with Full Kevlar®/Composite Filament Fiber Liner

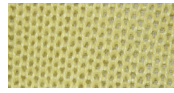

#69BSKFFL

Heavy-duty protection, with the bonus of cut resistance. This style offers dual protection and great value, featuring a cut-resistant composite-knit liner with an ANSI level A5 rating. 1.4 mm. premium side-split leather, selected for its durability, is featured on the palms. Bandtop version has 9 oz. cotton twill backs, and is sewn using super-strong, heat-resistant DuPont Kevlar® thread. Full cut-resistant liners knit with composite filament fiber encased in Kevlar®, is spun in a way to ensure the fiber will not come into contact with skin. This blend offers greater economy than 100% Kevlar®, yet provides a much higher level of cut resistance: during testing, gloves withstood 2850 grams of cut force. Additionally, puncture resistance during testing was ANSI puncture level 4.

Gunn-cut pattern moves seams away from between fingers and toward the back for less rubbing. Backs feature leather knuckle straps and elasticized wrists for a snug fit.
