- PU is non-shedding and provides a high level of tactile sensitivity

### APPLICATIONS

General Purpose  
Fabrication  
Electronics  
Construction  
Automotive  
Assembly

### TESTIMONIAL

DAVID H.  
(ELECTRICIAN)

We have used your gloves with very good results. I have used them around a test bed installation project which required a lot of nut and bolt manipulation. Dexterity of the glove was incredible and performance was top notch. Hazards were abundant, sharp edges, hot metal, drill bit shavings and a few others. The glove protected my hands in all conditions and I continue to use them as my daily hand protection around the plant for routine maintenance tasks. This product works great for us.
