

Notice of Product Change Letter

RE: SLPB9TH

Date: August 14, 2018

To: Our Valued Customers

This letter is in regards to a cosmetic upgrade to our Superior® Puncture and Cut-Resistant Sleeve made with Punkban™ Product ID: SLPB9TH

Change Description: Designed to protect the forearm from cut and fine puncture threats, this sleeve is changing from high visibility lime green to a light brown color.

Reason: The color change is based on customer feedback. These sleeves are most popular in industries where bright colors can cause aggression. Brown was chosen as an alternative because of its neutrality, which does not cause aggression in humans or animals.

This change will happen immediately.
