Clutch Gear®

Waterproof Impact Protection Oilfield Glove
with Kevlar®-Reinforced Thumb Crotch

#Q18VSBTW

Featuring a 100-gram waterproof and breathable Thinsulate™ lining, this glove combines a heavyweight, 18 oz. corded cotton/poly double-weight palm with a full mechanics-style back.

No detail was missed in these unique gloves engineered specifically for the oil patch. Our molded impact protection high-viz backs are flexible and do not prohibit the full range of hand movement. They protect against knocks and scrapes, while palms provide good grip when handling oily metal parts by absorbing excess oil.

Comfortable Neoprene cuffs also mean no snagging. Thumb crotch area is reinforced with a Kevlar® patch for longer wear.
