

## The world's thinnest ANSI A9 cut protection

The Tenactiv™ S21TXUFN is the world's thinnest glove to deliver the industry's highest-level of cut protection. With a barehand feel, it's designed to handle the most hazardous cut tasks that require the highest level of dexterity. The ultra-thin nitrile palm coating offers a strong grip that won't slip, all while being touchscreen compatible.

### S21TXUFN Key Features

- 360° of cut resistance with ANSI Level A9 Cut Protection
- Barehand feel thanks to ultra-thin 21-gauge knit
- Nitrile palm coating provides a secure grip when handling lightly oiled parts
- Ideal for applications that require high dexterity and extreme cut protection
- Touchscreen compatible to seamlessly move between tasks
